

## **PERCEPTION, ATTENTION, CONSCIOUSNESS**

### **Postdoctoral position (stipend-based) in “Perception, Attention, Consciousness” at Berlin School of Mind and Brain, Humboldt-Universität zu Berlin (MB/PD/1)**

A postdoctoral position (stipend-based) in the area “Perception, Attention, Consciousness” is available immediately at the Berlin School of Mind and Brain.

We are looking for a postdoc who is interested in working on conscious perception in any sensory modality in either of the following fields within the Berlin School of Mind and Brain:

- Characterizing basic sensory signal processing,
- Neuronal representations and cognitive mechanisms of perception,
- Determinants of conscious and unconscious perception,
- Interplay between perception and action,
- Neural encoding of conscious perception, or
- Neurophilosophy of phenomenal consciousness.

For further information about the research foci of conscious perception at the school please refer to: <http://www.mind-and-brain.de/research/topic-1-perception-attention-consciousness/>

The successful candidate will become a member of the Berlin School of Mind and Brain at Humboldt-Universität zu Berlin. She/he will be part of a postdoctoral program that offers networking opportunities, supervision training, teaching portfolio development, mentoring, and other career development measures.

The position will be available for two years. Further information on the postdoctoral program and on the terms and conditions of the position is available at: [www.mind-and-brain.de/postdoctoral-program/jobs](http://www.mind-and-brain.de/postdoctoral-program/jobs)

Research and training at the Berlin School of Mind and Brain focuses on the interface between the humanities and the neurosciences. The school is situated in lively part of central Berlin. More information about the school and its research environment can be found on the website ([www.mind-and-brain.de](http://www.mind-and-brain.de)).

#### **Requirements:**

- doctoral degree in psychology, neuroscience, philosophy of mind, philosophy of science, or a related discipline,
- for empirical projects: solid experience with at least one experimental technique relevant to the research project (e.g., psychophysics, EEG, TMS, fMRI, eye-tracking, etc.),
- publications in international journals,
- fluency in English.

Applications should include: (1) a cover letter quoting the code number MB/PD/1 and describing the candidate’s motivation, research experience, interests, and plans; (2) a curriculum vitae; (3) up to five reprints; and (4) two letters of recommendation. The method of submission is a single

PDF file for the cover letter and CV, plus separate PDF copies of the reprints. The applications (subject line: "MB/PD/1") should be e-mailed to: [mb-postdocs@hu-berlin.de](mailto:mb-postdocs@hu-berlin.de). Letters of recommendation and questions (subject line "MB/PD/1") can be e-mailed to the same address.

Please check the website for interview dates (video/skype) for this position: [www.mind-and-brain.de/postdoctoral-program/jobs](http://www.mind-and-brain.de/postdoctoral-program/jobs)

Published on 11 February 2013. Applications received within four weeks after publication will be assured full consideration.
